

## ★ About our Results

**What area do these results cover?** Our results are for San Diego County only; some contests on our ballot are also on ballots in other counties.

**When should I expect to see results?** We start releasing results at 8:00PM on the day of the Election. The 8:00 PM results are from Mail ballots received in our office before 6:00AM the day before Election Day. At approximately 9:30PM we will start releasing results from polling places on Election Day. These will continue every 30 minutes until all the polling place ballots have been received and processed. Our estimate for completion of the polling place ballots is 3:30AM the following day.

**How do I view results?** We are providing results in several formats in an attempt to accommodate wide range on devices using Internet browsers like Microsoft Internet Explorer, Fire fox, Netscape, Safari, etc to mobile devices such as Blackberry, I-phone and Droids.

### **When looking at the results page:**

The selections on the **LEFT** ([All Results and By Political Division](#)) were designed to be used with current web browsers and **NOT** mobile devices such as smart phones or not so smart phones like older blackberry's. It should be noted that some smart phones are capable of viewing these results using these links but we do not recommend using these on smart phones.

The selections on the **RIGHT** were designed for use with both **browsers and mobile devices**. These results are compressed so they fit better on mobile devices small screens.

### **There are several new options available in these menus:**

**Web Results:** Displays all the contests and candidates in a single list.

**Custom Results:** You can select the contests you are interested in and display only those contests. This reduces the amount of information being displayed and for mobile devices reduces the amount of scrolling to view results.

**In the Lead:** Displays only the current top vote getter or if there is a tie displays the leaders.

**Contests within 1%:** Use this to see which candidates in close races.

**Text Results:** For those on mobile devices that are having difficulty viewing results using the links above try this. This option displays all the contest and candidates in a single list similar to the Web Results.

### **Additional Features you might want to try:**

Depending on your browser and version there are two other options available.

The Election Results page contains an [RSS](#) feed which can be seen by most browsers indicated by .

For those using “Internet Explorer 8”, you will see a [Web Slice](#) opportunity indicated by . Other browsers may or may not recognize the Web Slice with the appropriate add-on if available.
